- (2) The RM of Britannia Rural Address system leverages the use of township and range road networks for assigning civic addresses.
- (3) For properties along a Township or Range Road, each mile in a section is divided into 40 metre lot intervals producing 80 addressable lots, starting at the most southern and eastern intersection (see diagram 1).
- (4) For the purposes of addressing, virtual township roads exist between all sections whether an actual road allowance exists or not.
- (5) For properties along a highway and numbered Grid Road, the highway or road is divided into 40-meter lot intervals for the full length, starting at the most southern and eastern location in relation to the distance to the provincial boundary.
- (6) For properties along locally named roads, the road is divided into 40-meter lot intervals for the full length of the road, starting at the most southern and eastern location.
  - a. Section 1)(6) does not apply to locally named roads in subdivisions.
- (7) Civic numbers generally increase in a northerly and westerly direction.
  - a. Even civic numbers are on the west and south side of the road.
  - b. Odd civic numbers are on the east and north side of road.
- (8) Where the actual road deviates from the road allowance as surveyed on the original Township Plat (ie: "bought" or "forced" road allowance), the original road allowance on the section/quarter boundaries shall be used for creation of rural addresses.
- (9) The Multi Lot Subdivision address is a one-to-three-digit number. Named Multi Lot Subdivision addresses will be determined as follows:
  - a. Existing Multi Lot Subdivision addressing remain as-is, as per the following schedules:
    - "D" – Border Creek Estates – SW 23-50-28W3M

    - "J" – Hillgreen Estates – SE 26-50-28W3M
    - "K" – Krambury Estates – SW 05-50-27W3M
    - "L" – Northminster Estates – SE 12-51-28W3M
    - "M" – Prairie Grove Estates – SW 26-50-28W3M
    - "N" – Val-Lee Subdivision – SW 13-51-28W3M
    - "O" – West Bay Estates – NW 01-52-28W3M
    - "P" – West Bay Estates - SW 01-52-28W3M
  - b. For all multi lot subdivisions not listed in schedules "D" through "P" of this bylaw, the assignment of civic numbers is based on a measurement system where each road is divided into 8 meter segments starting from:
    - i. The most southerly/ easterly point on the road if the road connects with a township road, range road, highway, or other locally named road; or
    - ii. The most southerly/ westerly point on the road if it connects with a township road, range road, highway or other locally named road; or

**Bylaw 04-2024**

- iii. The most logical point to start numbering based on Saskatchewan Urban Addressing practices as provided by the Saskatchewan Public Safety Agency.
- c. All addresses on the east and north sides of a road shall be assigned an odd number.
- d. All addresses on the west and south sides of a road shall be assigned an even number.
- e. Address numbering shall increase in the easterly and northerly directions.
- f. On circular roads, the addresses will start at the most easterly or southerly intersection and the odd and even numbers assigned so that they are on the same side as they were when entering the circular road from the most easterly or southerly intersection, as per Diagram "1".

**Diagram "1"**

- g. Cul-de-sacs are numbered in much the same way as circular roads are. The point where the odd and even numbers meet should be positioned to be at the furthest point from the intersection of the cul-de-sac and the road that it connects to, as per Diagram "2". If there are buildings in the centre of the cul-de-sac, a rare occurrence, the cul-de-sac should be numbered as a circular road.

**Diagram "2"**

- b. The two ending digits represent the grid interval number.

Example: 50134 RGE RD 3152

Diagram “3”

**2) Assigning Rural Addresses**

- (1) Addresses will be determined based on the location of the primary access approach to the Building from a public road.
- (2) For multiple Buildings located off the same Primary Access, the first Building off the Primary Access will be labelled with a "1" designation as a suffix to the Rural Address, the second a "2" designation and so forth, moving away from the township/range road along the Primary Access Road.
- (3) Where a single Building exists off one Primary Access as of August 14, 2019, and additional Buildings requiring addresses are added afterwards, the original Building address will remain the same and the additional buildings will be labelled with suffixes beginning with "1" as per section 2) (2).
- (4) For buildings where there exists more than one Access point, the Access that appears to be the Primary will be used for the purpose of assigning a Rural Address. If there is no clear Primary Access, the most easterly access for a property along an east/ west/ township road and most southernly access along a north/ south/ range road will be determined to be the Primary Access for the purpose of assigning a Rural Address.
