BYLAW No. 06-2025

A BYLAW OF THE R.M. OF BRITANNIA NO. 502 TO AMEND BYLAW No. 18-2014 KNOWN AS THE LLOYDMINSTER PLANNING DISTRICT COMMISSION ZONING BYLAW

The Council of the Rural Municipality of Britannia No. 502, in the Province of Saskatchewan, enacts this bylaw to amend Bylaw No. 18-2014 as follows:

1. **PART 2 – INTERPRETATION**, is amended by deleting the “*Building Floor Area*”, “*Dwelling, Single Detached*” and “*Garden Suite*” definitions in their entirety.
2. **PART 2 – INTERPRETATION**, is amended by adding, in the appropriate alphabetical sequence, the following new definitions:

“Building Floor Area: means the maximum habitable area contained within the outside walls of a building, including area on multiple storeys, but excluding in the case of a dwelling unit any private garage, porch, sunroom, unfinished attic or unfinished basement.

Building Footprint: means the area of the main floor of a building, as measured between the outside walls of a building, excluding in the case of a dwelling unit any private garage, porch, sunroom, unfinished attic or unfinished basement. Where applied to an accessory dwelling unit within or attached to a building, the building footprint will be measured between the exterior walls of said dwelling unit.

Dwelling, Single Detached: means a detached building consisting of one dwelling unit as herein defined with the exception of an approved Secondary Suite, but shall not include a manufactured or mobile home as herein defined.

Membrane-Covered Structure: means a structure consisting of a frame that is covered with plastic, fabric, canvass or similar non-permanent material, which typically is used to provide storage for vehicles, boats, recreational vehicles or other personal property, or on a larger scale, for storage of commercial goods and materials. The terms shall also apply to structures known commonly as ‘hoop houses’, ‘canopy-covered carports’ and ‘tent garages’, and can be fully or partially covered. Gazebos are not membrane-covered structures.

Non-farm Residential Parcel: A parcel severed from an agricultural holding where the principal use of the parcel is for a residential building site and space rather than for productive agricultural purposes.

Pole Shed and Post Frame Structures: means buildings and structures constructed using pole framing or post-frame construction technique.

Secondary Suite: means a self-contained dwelling unit that is an accessory use to a single detached dwelling, and is located within;

(a) a building in which the principal use is a single detached dwelling; or

(b) a building that is accessory to a single detached dwelling but is not otherwise a dwelling, where the building is modified and/or suitable for human habitation.

Single-parcel Country Residential: See “Non-farm Residential Parcel” definition.”
